Education

University of Michigan - Dearborn   **Graduated April 2017**

- Bachelor of Science in Computer and Information Science   **3.88 GPA | High Distinction**

- Majored in Computer Science

Skills

- Fluent in Java and Python

- Prior/Partial experience with Javascript, Typescript, C++, C#, and SQL

- DevOps skills in Vagrant, Gradle, Flyway, and Jenkins

- Extensive version control experience with Git

Experience

Software Engineer in the Ford College Graduate Program at Ford Motor Company   **June 2017 – Present**

- Worked on two product based teams utilizing the Spring and Angular frameworks   **Dearborn, MI**

- Lead technical interviews for our teams that resulted in three hires

- Retooled our team's dev review process that resulted in a decrease in defects

- Created framework for our pairing stations that installs all needed software and dotfiles

- Worked on company-wide solution to provide consistent development environments using Vagrant

- Collaborated with Ford Labs team to foster one of Ford's first inner source projects

Co-op DevOps Architect at Oplogic   **January 2016 – February 2017**

- Implemented Gradle as company's first ever build tool   **Clawson, MI**

- Virtualized development environments with Vagrant

- Migrated version control system from CVS to Git

- Automated production moves and DevOps tasks with various Python and Bash scripts

- Increased productivity by creating local databases to decouple development environments

- Implemented database versioning using Flyway to keep track of database migrations

- Introduced continuous integration and deployment with Jenkins

Personal Work

PoshPlus   **May 2018 – Present**

- Created an open source PowerShell framework that improves the terminal experience on windows

- Provided over 100 git aliases with a helper command named "howto" to discover them

- Included visually pleasing and contextually sensitive themes such as the popular Agnoster theme

- Abstracted the provided package manager to allow users to install any software for fast and easy setup

- Included command history search with partially typed words
